

BLUE MIND
COWORKING

IN THE SPOTLIGHT

Jenna Curry
Remedy Digital
Agency

By Julie Donlon

One of the original Blue Mind Coworking Members is Jenna Curry, the Owner of Remedy Digital Agency. Remedy Digital opened in Wilmington in 2016 and services both local, National, and International clients. Businesses and organizations seeking to increase and automate their sales work with Remedy to create high converting online sales funnels using paid media combined and a robust follow-up system that reaches potential customers from multiple channels.

Jenna is also the Founder of Port City Young Professionals, which she formed to find people her age to "build a tribe" that would be supportive both professionally and personally. what began as a way for Jenna to connect has grown into "a massive organization serving thousands of local young professionals and hundreds of local businesses & organizations in the area through online and in-person events." We are proud to call ourselves members of PCYP!

We asked Jenna what she likes about coworking and Blue Mind in particular, and this is what she had to say - "Coworking boosts my productivity and keeps me more focused than when I work from home or in coffee shops. The energy produced in a shared space with other entrepreneurs and business-minded people compounds, and we all get to feed off each other. Blue Mind is full of amazing businesses and people eager to grow their businesses, share ideas, network, and encourage one another. I love the people, vibe, and atmosphere at Blue Mind. The coastal-themed decor is soothing and a great reminder of how lucky we are to live by the water and reap the benefits of a "blue mind." We could not agree more with her, and Jenna makes BMC a great place to work.

When Jenna is not creating, networking, or planning amazing events, she can found golfing - what can she not do well? She can also be found at Bento Box in the Forum - a BMC favorite as well!
